## The 2016 Session

### OREGON ASSOCIATION OF AREA AGENCIES ON AGING AND DISABILITIES ~

O4AD presents our 2016 end of session Legislative Report. As Oregon's third "short" session wraps up, we see that our state is gearing up for a very significant interim and significant consideration as to the future of the state leading into 2017. O4AD works strategically to advance the work of Oregon's Aging & Disability Network, the Area Agencies on Aging & Disabilities and the voice of the individuals that we serve – Oregon's seniors and people with disabilities. Through collaborative work with coalitions and partners, reliable information and data on the service system, and an 'on the ground' perspective into the long-term services and supports system in Oregon, O4AD remains committed to protecting the independence, dignity, choice and safety of Oregon's seniors and people with disabilities.

Please contact us with any questions about this report or for other information we may provide. We look forward to hearing from you.

# KEY ISSUES FOR THE 2016 SESSION

## Key Issues for the 2016 Session

The Oregon voters approved the introduction of annual session by ballot in November 2010 (Oregon Ballot Measure 71). This measure allowed for a 'short session' to be held in the odd-numbered years, limited to 35 calendar days and enacted in 2011. The ballot measure also limited the even-numbered years to session of no more than 160 calendar days. The original intent of the 'short session' was understood to allow for necessary budget adjustments, policy adjustments and necessary statutory changes to help the two-year biennium move more efficiently rather than only have the Emergency Board process or the potential of Special Session to rely on. With a short amount of time, it would be unrealistic to advance major policy decisions on a rushed schedule. Then HB 3650 was passed in the inaugural 'short session', which enacted Oregon's health system transformation, the complete overhaul of the Medicaid system and the establishment of the CCOs in a 44-page bill with multiple amendments and the short session intent was never the same again.

Close to 300 bills were introduced for the February 2016 session and just over 25% passed.

In 2016, the Governor indicated her priorities for the session included revising Oregon's minimum wage, advancing a package to expand affordable housing in the state, and addressing Oregon's high school graduation rate. Various measures were introduced on these topics but a few key priorities quickly rose to the surface:

**Minimum Wage** ~ Prior to the session, various groups indicated their intention to launch ballot initiatives that would propose raises to Oregon's minimum wage. Oregon's current minimum wage is \$9.25. One ballot initiative, supported by 15Now Portland, would raise Oregon's statewide minimum wage to \$15 an hour by 2019 through a series of three increases starting with \$11.50 in 2017, \$13.25 in 2018 and \$15 in 2019. Annual increases would occur for inflation after 2019. A second ballot measure initiative was announced in the fall of 2015 that would call for an increase in Oregon's minimum wage to \$13.50 an hour over two years and repeal a pre-emption on local wage hikes. The Coalition that supported this initiative, Raise the Wage, indicated their goal was to call on the legislature to pass a minimum wage increase in the 2016 session or head to the ballot in the fall.

Several legislative measures were filed that address minimum wage but ultimately, SB 1532 was the bill that was introduced and passed by both chambers. In a unique approach, the bill adopts a tiered plan for increasing the minimum wage at different rates throughout the state.

In the Portland urban growth boundary, Tier 1, minimum wage would increase to \$9.75 as of July 1, 2016 then would continue with annual increases to reach \$14.75 by July 1, 2022. However, in Tier 2 counties (Benton, Clackamas, Clatsop, Columbia, Deschutes, Hood River, Jackson, Josephine, Lane, Lincoln, Linn, Marion, Multnomah, Polk, Tillamook, Wasco, Washington, Yamhill), the minimum wage would increase to \$9.75 on July 1, 2016 then raise annually to reach \$13.50 by July 1, 2022. Finally, in Tier 3 counties

# KEY ISSUES FOR THE 2016 SESSION

(Malheur, Lake, Harney, Wheeler, Sherman, Gilliam, Wallowa, Grant, Jefferson, Baker, Union, Crook, Klamath, Douglas, Coos, Curry, Umatilla, Morrow), the minimum wage would increase to \$9.50 on July 1, 2016 then raise annually to reach \$12.50 by July 1, 2022.

The goal of a tiered approach is to allow for the economic differences that exist between the urban and rural sectors of the state. SB 1532 has passed both Chambers and has been signed by the Governor. Proponents of the \$13.50 ballot initiative have indicated they will drop their campaign with the signing of the current minimum wage bill. The proponents of the \$15 ballot initiative have now indicated they will not proceed on their ballot measure for the 2016 campaign cycle.

Legislative Fiscal was unable to provide estimates of the impact to state budgets due to the increase in the minimum wage however it is expected there will be some level of impact overall and will also impact current collective bargaining agreements among represented employees. The impact to local governments was also unable to be determined during the hearing process.

**Housing** ~ The lack of affordable housing had gained significant attention as the Session prepared to start. Prompted by a rapid increase in both rents and housing prices in the Portland area, Legislators began to look at how to make strides given current land use and building law yet also find new resources for an increase in affordable housing.

A package of bills was introduced into the session that were considered a “all or nothing” package. The Speaker of the House indicated that all of the bills must pass or none would be enacted. The package of bills included:

**HB 4079** ~ would create a pilot program in which two cities would expand their urban growth boundary primarily for the purpose of increasing affordable housing.

**HB 4143** ~ would add to the length of notice landlords must give their tenants before increase rent or ending a tenancy.

**SB 1533** ~ would end a current law that bars cities from requiring a portion of new housing developments be held at below-market rates, known as inclusionary zoning.

**SB 1573** ~ would allow cities to annex land within an urban growth boundary if all landowners in the area agree and if the land is or will be subject to the city’s comprehensive plan.

Each of the bills in the package have undergone significant revisions and amendments while trying to balance the interests of builders, real estate, labor, cities, local government and conservationists. Most were scaled back from the original intent. All bills were ultimately passed in the very final days of the Session.

# KEY ISSUES FOR THE 2016 SESSION

**Energy** ~ SB 1547 was introduced into the February session with a goal of eliminating use of coal power in the state by 2035 and increasing the amount of clean, renewable energy serving Oregon by 2040. Known as the “Clean Electricity and Coal Transition Plan,” the bill was developed by bringing utilities, energy industry, business, advocacy and community organizations. The original plan was reviewed significantly and involved Portland General Electric and Pacific Power. Ultimately, the bill moved the plan forward after significant negotiation and amendment. Through this legislation, PGE and Pacific Power would cease paying for power produced at out-of-state coal-fired power plants by 2030 and require by 2040 that utilities would serve half of their customers’ demand with renewable power sources such as wind and solar. This bill, like others, had an overarching goal of avoiding a ballot measure that had been proposed for the November ballot.

**IP 28** ~ IP 28 is a ballot measure initiative that was filed by Our Oregon, a progressive organization primarily supported by labor unions within the state. IP 28 amends current Oregon law to increase the annual minimum tax that C corporations with sales in Oregon of more than \$25 million would pay beginning in January 2017. Currently, corporations with Oregon sales of \$25 million to \$50 million pay a minimum tax of \$30,000. Under IP 28, a corporation with Oregon sales of more than \$25 million will pay a minimum tax of \$30,001 plus a 2.5% tax of the excess over \$25 million on gross receipts. Gross receipts are the total overall sales versus net profit after expenses. As per the ballot measure language, funds would go to the state General Fund but would be required to be spent on public early childhood education, K-12 education, healthcare and services for senior citizens. As a ballot initiative, IP 28 proponents must gather 88,184 valid signatures from Oregon votes by July 1, 2016 to qualify for the ballot in November 2016.

The proponents of the ballot measure estimate that IP 28 could raise \$4-5 billion per biennium (Our Oregon). They argue that the ballot measure is targeted to large, multistate corporations that have the capacity to pay what is seen as their ‘fair share’ in taxes back to Oregon. They also argue that Oregon is suffering greatly from a lack of available resources to adequately fund public services which requires a significant change in revenue, a ‘game changer’.

Opponents of the measure argue that this proposal would put Oregon at a significant disadvantage in attracting and keeping business in Oregon. They argue that as a gross receipts tax, there is no accounting for a company who may produce gross receipts of a significant amount but may have expenses that exceed those profits, yet will be taxed on the overall sales.

The campaign is currently in the process of collecting signatures. Senator Peter Courtney, at the Oregon Business Summit, suggested that the fight over this ballot measure may be the most contentious in Oregon history and create divides that will never be overcome. While there were rumored hopes to come up with an alternative during the Session that may avert this type of campaign, no alternative measure or action was taken during the session. This initiative is headed towards an election showdown in November.

# OTHER KEY ISSUES DURING 2016

## Other Key Issues During 2016

**Healthcare and CCOs** ~ Coming into the Session, there were a number of proposals on the table to modify the work of the Coordinated Care Organizations (CCOs) within Oregon. The three primary bills centered on increasing transparency, prohibiting retroactive changes in terms of CCO contracts and moving towards requiring a CCO to be a non-profit organization with greater community involvement. CCO contracts with the State are set for a new RFP process in 2018. HB 4107, retroactive change in terms of contracts, is the only bill moving head this session. However, with the timelines for the next RFP process for the CCOs nearing, it is expected that there will be a much more robust conversation on the status, role and future direction of Oregon's health system transformation in the interim and the 2017 session.

**Revenue Forecast** ~ The February Revenue and Economic Forecast offered some good news for budget writers. Compared to the December forecast, state revenues were on the rise. Fourth quarter personal income tax collections were up \$102.4 million from the Close of Session (COS) estimate however personal income tax revenue was down \$21.4 million from the same time period. Fourth quarter property tax collections were up \$14.8 million from December and corporate tax revenue was also up \$34.3 million. Net General Fund and Lottery fund resources were up a total of \$60.8 million from the Close of Session. Net General Fund resources were up \$36 million from the December 2015 forecast.

While the overall revenue picture showed a net positive, Oregon's economists cautioned in looking ahead. They noted a 2% decline in manufacturing in the US which can precede a recession. Slowing growth and struggles in the stock market along with a decrease in overall corporate profits are also trends to watch as Oregon heads into 2017. Oregon currently has state reserves of \$800 million, the largest Oregon has ever had in its savings account.

**Budget** ~ While Oregon's revenue forecast in February indicated more funds available during the current biennium, the very dark cloud hanging over all budget decisions in the 2016 session was the upcoming budget challenges projected for the 2017 Legislative session.

Previous budget conversations with members of Ways & Means point to a very steep hill of costs expected for the 2017-19 biennium. These costs include: PERS liability, increases in caseloads for human services programs, beginning of a decline in Federal funds committed to health system transformation and expansion of the Medicaid caseload, and increases in costs overall for providing human services programs. With a projected shortfall in the neighborhood of tens of millions of dollars, in a best case scenario, Legislators remained very hesitant to add new programs into the budget reconciliation at the end of the 2016 Session. Overall, \$150 million in adjustments were made to the budget and it was noted on the record that \$120 million of those adjustments were due to required changes compensation. Without other sources of revenue

## OTHER KEY ISSUES DURING 2016

aside from what is currently available, the 2017 session is set up to be one where, as one budget writer noted at the end of the Session, “we try to make the decisions of what cuts will hurt the least, not if we have to make cuts.”

# SENIOR & DISABILITY ISSUES DURING 2016

## Senior & Disability Issues During 2016

**Future cost/caseload growth** ~ Coming into the 2016 Legislative Session, advocates, stakeholders, providers and consumers were highly aware of the heightened attention on the Department of Human Services – Aging & Physical Disabilities budget issues and Intellectual/Developmental Disabilities budget issues. At the end of the 2015 Legislative Session, DHS shared that they were anticipating a significant deficit in their 2015-17 budget and due to a number of factors. During the January 2016 Legislative days prior to the opening of the February session, DHS presented to the interim Ways & Means Committee and shared an anticipated \$71 million deficit for the 2015-17 biennium.

The deficit in the APD and I/DD budgets, as presented to Legislators, is due to a number of factors convening at the same time. This included:

- \$14.1 million General Fund (GF) need due to increased hours per client in In-Home programs, increasing costs per case
- \$6.9 m GF need due to nursing facility caseload not dropping as fast as the forecast has projected
- \$.3 m GF need due to nursing facility final 2014 cost reports coming in slightly higher than forecasted
- \$6.14 m GF need in higher Homecare Worker benefits and paid time off due to greater hours worked
- \$4.6 m GF need due to bargained Home Care Worker and Adult Foster Care rate increases (however this was anticipated to be funded through the Special Purpose Appropriation set aside in the 2015 session)
- \$8.6 m GF need due to Department of Labor ruling requirements to pay minimum wage to Live-In and Hourly programs.
- \$13.8 m GF need for overtime bargaining due to recent Department of Labor rulings (however this was also anticipated to be funded through the \$17 million Special Purpose Appropriation)

There were also significant cost challenges within the I/DD system.

At the end of the 2015 Legislative Session, the Department of Human Services was tasked with responding to a budget note directing DHS to study feasibility and sustainability in the APD and I/DD budgets:

“The Department of Human Services is directed to report to the Joint Committee on Ways & Means during the 1016 Legislative Session on ways to ensure services to older adults and people with disabilities and people with intellectual and developmental disabilities remain sustainable into the future with a goal of capping biennial general fund budget growth at ten percent. Issues explored should include, but are not limited to, service eligibility, income eligibility criteria, and service array or level of services offered. For identified options, the report will cover associated fiscal impacts, potential implementation timelines, state law or rule changes required, experiences from or comparison to other states, and the likelihood of obtaining any needed federal authorization.”

# SENIOR & DISABILITY ISSUES DURING 2016

The Department contracted with the Lewin Group to conduct an independent study in response to the budget note. Prior to the Legislative Session, the Lewin Group shared a preview of their full report which was shared with Legislators during the February session.

Legislators indicated their frustration at the lack of details within the report, failure to provide the information Legislators had wished to see such as other state comparisons, and fully costed out proposals. However, it was still strongly felt that the increasing costs for the in-home programs in APD and I/DD and increasing caseloads along with concerns about the implementation of the Community First Choice Option (the K Plan) which brought significantly more individuals into receiving services required further conversation and action to curb cost growth for the future.

Legislators held after hours meeting with DHS to continue to review their concerns with costs and caseloads. As a result of those meetings along with concerns expressed by stakeholders, a second budget note was attached to the budget reconciliation bill moving through the February session:

“1. The Department of Human Services is directed to take steps to provide policy and budget options for decision making that will be required during the 2017 legislative session to ensure future sustainability of the APD and IDD programs. Steps include further refinement, analysis and pricing of viable options or ideas brought forth by the agency, stakeholders, and other interested parties; the focus should be on ways to control caseload growth and utilization. The agency will reach out to legislators, stakeholders, and partners to assist in this effort. In developing sustainability proposals, the Department shall prioritize options that minimize impacts on consumers and providers. The Department will also formally report, at a minimum, to the Emergency Board during Legislative Days in May and December 2016 on progress made under both parts of this budget note. The agency may also be requested to report to interim legislative policy committees on human services.

2. In addition to the work described above, the Department is also directed to take immediate actions that may help contain costs without changing the current service system structure and that do not require statutory changes. The agency’s action plan includes:

- Review and correct, if needed, the relationship between assessment tools and program eligibility criteria;
- Take action to more efficiently align service authorization with people’s needs, also consider appropriate limits;
- Work to limit use of overtime in service plans; but the agency should take into account workforce shortage areas, the needs of consumers, and changes to current consumer provider relationships;
- Continue discussions with CMS to prevent the conversion of natural support to paid support, with consideration for parental responsibility; and
- Further restrict the live-in program to prohibit live-in service plans when the individual lives in their family’s home or the family lives with the individual and is served by that relative (they would still be served in the hourly program).”

# SENIOR & DISABILITY ISSUES DURING 2016

APD has indicated they worked with Legislative Fiscal Office to create the language for this budget note based on their understanding of the expectations from Legislators for the next steps in this on-going conversation.

In a recent stakeholder call, APD indicated their commitment to work closely with stakeholders on potential proposals that will come forward to Legislators during the interim and in the 2017 Legislative session.

**Rebalance** ~ While the Department entered the session with a large projected deficit, the budget Co Chairs indicated, prior to session, that resources would be available to finish out the 2015-17 biennium without cuts to programs and services. The budget reconciliation bill contained funding and appropriations to cover \$37.4 million in General Fund of the projected deficit and kept in place a \$40 million Special Purpose Appropriation for the Oregon Health Authority and Department of Human Services. The budget rebalance leaves approximately \$34.9 million in General Fund deficit unfunded at this time.

**Gatekeeper** ~ O4AD prioritized reinstatement of funding for the Gatekeeper program for the 2016 Legislative Session. This program had original funding during the 13-15 biennium in the amount of \$1.7 million in General Fund. The original request and push for this program came from the Alzheimer's Association who identified the ADRC network as the right place to establish this program on a statewide basis.

O4AD worked closely with a variety of stakeholders on this request including the Campaign for Oregon's Seniors & People with Disabilities, AARP, the Alzheimer's Association and a wide variety of advocates. The request for reinstatement was at the amount of \$850,000, one year of funding for the remainder of the biennium.

While advocates and O4AD worked diligently on this request, it was ultimately not funded in the budget reconciliation. It was indicated that only the budget rebalance for APD would be the only item funded in that program area through the budget reconciliation bill, or "Christmas Tree" bill. There were also concerns that with the upcoming budget issues anticipated for the 2017-19 budget, this program would be slated for potential loss of funds after only one year of funding. The significant concerns around the 2017-19 biennium have cast a very large shadow over all of the 2016 session.

# O4AD LEGISLATIVE BILL REPORT

## O4AD Legislative Bill Report

O4AD followed 30 bills during the February 2016 session. These were bills with a direct impact on the aging and disability services network, bills tracked by the Department of Human Services ~ Aging & Physical Disabilities Division or brought to our attention by other stakeholders or advocates.
